

LZW Question Generator - Class Test Feedback

* Required

Briefing

The aim of this survey is to explore how students feel about automatically generated LZW compression questions compared with the types of questions they usually encounter in class or coursework.

As part of this activity, you will first complete a short class test containing an LZW compression or decompression question generated by the system. This question is intended to resemble the types of questions typically used for practice.

After completing the class test question, you will be asked to complete a short questionnaire about your experience. The survey will ask about the clarity of the question, its perceived difficulty, and whether it felt fair compared with the types of questions you normally encounter.

The purpose of this survey is to gather feedback on automatically generated questions and understand how students experience them in a test-like setting. It is not an assessment of your ability, and there are no right or wrong responses in the questionnaire. Participation is voluntary, and you may stop taking part at any time if you wish.

1. Do you agree to taking part in this evaluation? *

☐ Yes

☐ No

Questionnaire

2. How confident do you feel in your understanding of the LZW algorithm? *

- ☐ Very Unconfident
- ☐ Unconfident
- ☐ Neutral
- ☐ Confident
- ☐ Very Confident

3. How would you compare the difficulty of the questions you have seen to questions you have seen in tutorials or class examples? *

- ☐ Very Similar
- ☐ Similar
- ☐ Neither Similar or Disimilar
- ☐ Disimilar
- ☐ Very Disimilar

4. Do you feel the question tested your understanding of LZW principles? *

- ☐ Strongly Agree
- ☐ Agree
- ☐ Neither Agree or Disagree
- ☐ Disagree
- ☐ Strongly Disagree

5. How did you find understanding and working with the randomly generated string/input for the LZW question? *

- ☐ Very Clear
- ☐ Clear
- ☐ Neutral
- ☐ Difficult
- ☐ Very Difficult

6. How much do you agree with the following statement?

I think it is fair for students to receive different but equally difficult questions in class tests. *

- ☐ Strongly Agree
- ☐ Agree
- ☐ Neither Agree or Disagree
- ☐ Disagree
- ☐ Strongly Disagree

7. Do you have any other feedback about the use of automatically generating questions of similar difficulty for class tests or student use when revising?

Debrief

The main aim of this experiment was to investigate the suitability, usability, and perceived effectiveness of the LZW question generator. In particular, the study explored how students experience automatically generated LZW compression questions compared with the types of questions typically encountered in class or coursework. During the session, you completed a short class test question generated by the system and then provided feedback through a questionnaire.

The purpose of this was to understand how clear, fair, and appropriately challenging the automatically generated questions felt from a student perspective. The data collected during this session consists of observational notes about how the system was used and your responses to the post-task questionnaire. No aspect of this study evaluated your individual performance or ability, the focus was entirely on assessing the system and the generated questions.

If you have any comments, concerns, or questions about the experiment, you are welcome to raise them now. Please take note of my email address (2768771K@student.gla.ac.uk) and the module co-ordinator's email address (Oana.Andrei@glasgow.ac.uk).

If you have any further questions or concerns about the study at a later time, please feel free to contact us. Thank you very much for your participation. Your feedback is greatly appreciated!
