1. Do you agree to taking part in this evaluation?

2. How did you find using the question generator?

3. Did you trust the generator to produce fair questions?

4. Did questions with different symbol patterns feel different in difficulty, even when they required the same number of steps to solve?

5. How did the difficulty of questions with repetitive symbol patterns compare to questions with evenly distributed symbols?

6. How much do you agree with the following statement?

Differences in automatically generated input generated can impact perceived difficulty.

7. How much do you agree with the following statement?

As the length of the string increased, the number of steps required to solve the problem increased proportionally.

8. Do you have any other thoughts after using the generator?
